## *Design Automation Standards Committee* **Policies and Procedures for Standards Development**

### **1.0 Introduction**

#### **1.0.1 Role of Standards Development and these Procedures**

In today's technological environment, standards play a critical role in product development and market competitiveness. In the IEEE, the responsibility for how a standard originates and evolves is managed by a Sponsor. It is essential in the management of a standard's development to avoid any actions by the Sponsor or the participants that result in a violation of procedures. These procedures establish the necessary framework for a sound standardization process.

#### **1.0.2 Modification to these Procedures**

The official policies of this Sponsor are those that have been accepted by the IEEE-SA Standards Board based on the recommendation of the Audit Committee (AudCom), and are available online on the IEEE-SA Standards Board AudCom website. No other copy shall be designated as the official copy. Any changes that the Sponsor desires to make to the procedures shall not be valid until revised policies have been recommended for acceptance by AudCom and accepted by the IEEE-SA Standards Board.

#### **1.0.3 Hierarchy**

Participants engaged in the development of standards shall comply with applicable federal, state, and international laws. In addition, for standards matters, the latest versions of several documents take precedence over this document, in the following order:

[New York State Not-for-Profit Corporation Law](#)

[IEEE Certificate of Incorporation](#)

[IEEE Constitution](#)

[IEEE Bylaws](#)

[IEEE Policies](#)

[IEEE Board of Directors Resolutions](#)

[IEEE Standards Association \(IEEE-SA\) Operations Manual](#)

[IEEE-SA Board of Governors Resolutions](#)

[IEEE-SA Standards Board Bylaws](#)

[IEEE-SA Standards Board Operations Manual](#)

[IEEE-SA Standards Board Resolutions](#)

Policies and Procedures of The Design Automation Standards Committee

Anything the Sponsor creates is hierarchically inferior to the documents and resolutions that are listed above its Policies and Procedures. The Policies and Procedures of the Sponsor are hierarchically superior to other documents of the Sponsor. *Robert's Rules of Order Newly*

*Revised (RONR)* is the recommended guide on questions of parliamentary procedure not addressed in these procedures.

### **1.0.4 Fundamental Principles of Standards Development**

These Policies and Procedures outline the orderly transaction of standards activities of The Design Automation Standards Committee, herein after referred to as “the Sponsor” or “the DASC”. For the development of standards, openness and due process shall be applied, which means that any person with a direct and material interest who meets the requirements of these Policies and Procedures has a right to participate by:

- a) Expressing a position and its basis
- b) Having that position considered, and
- c) Appealing if adversely affected.

Due process allows for equity and fair play. In addition, due process requires openness and balance (i.e., the standards development process should strive to have a balance of interests and not to be dominated by any single interest category). However, for the IEEE Standards Sponsor ballot, there shall be a balance of interests without dominance by any single interest category.

### **1.0.5 Definitions**

"Written communication" includes but is not limited to meeting minutes, letter, email, and fax.

## **1.1 IEEE Sponsor Scope**

The IEEE DASC is responsible for the standardization of Design Automation and related Semiconductor-related Intellectual Property (IP) standards in the IEEE. The DASC is focused on language based design, modeling, integration and verification standards. This includes standards for timing, synthesis, algorithms, low power, IP reuse, IP encryption, and test.

## **1.2 Organization of the Sponsor**

The Sponsor shall consist of officers (see Clause 3), and other members.

If, during that time, a motion to block the position statement is made, release of the position statement will be pending resolution of the blocking motion.

#### **8.3.2 Subgroup Public Statements**

Subgroup public statements shall not be released without prior approval of the subgroup. Such public statements also require approval of the Sponsor. For position statements not presented for review at a DASC meeting, DASC Members shall be provided a review period

of at least five (5) days. If, during that time, a motion to block the position statement is made, release of the position statement will be withheld pending resolution of the blocking motion.

Subgroup public statements shall be identified in the first paragraph of the public statement as being specifically the position of the subgroup, and do not necessarily represent the views of the Sponsor, IEEE-SA, or IEEE. These statements shall be issued by the subgroup Chair and shall include the Sponsor Chair in the distribution. Such statements shall not bear the IEEE, the IEEE-SA, or the Sponsor logos.

### **8.3.3 Public Statements to be Issued by other Entities**

**This clause shall not be modified.**

If the Sponsor wishes to go to another IEEE entity (as defined in Section [15](#) of the IEEE Policies) to have that entity offer a public statement on a standards matter, they shall do so only after agreement from the IEEE-SA Standards Board and approval from the IEEE-SA Board of Governors. Upon Sponsor approval, proposed public statements that need to be issued by other IEEE entities shall be forwarded to the IEEE-SA Standards Board Secretary for further action.

### **8.4 Informal Communications**

Informal communications shall not imply that they are a formal position of the IEEE, the IEEE-SA, or the Sponsor.

### **8.5 Standards Publicity**

The Sponsor is encouraged to prepare press releases and other forms of publicity to promote their activities. Please see clause “Standards publicity” of the *IEEE-SA Standards Board Operations Manual* for further instructions.

### **9.0 Appeals**

Technical discussions and decisions occur within the Sponsor subgroup (e.g., Working Group). Any person dissatisfied with a technical decision shall follow the approved procedures for providing technical input to the subgroup that made the decision, including but not limited to making a technical comment during the applicable comment submission and/or balloting period.

The DASC recognizes the right of appeal on procedural grounds. Procedural concerns within a Sponsor subgroup shall be first presented to the subgroup or Working Group for resolution. If the procedural concern is not resolved after presentation to the subgroup for resolution, the complaint regarding any procedural action or inaction on the part of the DASC or a DASC’s subgroup, shall be presented to the DASC for resolution. If the party bringing the complaint determines that the DASC’s proposed resolution is unacceptable, such party can file a procedural appeal with the Sponsor.

Appeals to the Sponsor shall be addressed as follows:

The appellant shall file a written appeal to the Sponsor Chair within 30 days of the event (action or inaction). The written appeal shall state the nature of the issue, including any adverse effects; the clause(s) of the procedures that are at issue; summarize previous attempts to resolve the issue with the subgroup or Working Group that is responsible for the standard including the outcome/decision of each attempt; and propose specific remedies that would satisfy the appellant's concerns. The appellant shall provide any supplemental information necessary to support the claims made in the appeal.

Upon receiving a written appeal, the Sponsor Chair shall form an Appeal Committee consisting of at least five members of the Sponsor, none of whom were directly involved in the matter in dispute, and who will not be materially or directly affected by any decisions made concerning the dispute and shall appoint a chair. The chair of the Appeal Committee shall be an officer of the Sponsor, if possible. The Appeal Committee shall review the written appeal and decide, within 45 days of the submission of the written appeal, whether or not to recommend to the Sponsor that an Appeal Panel be formed to consider the appeal. The Appeal Committee may try to resolve the issue with informal discussions with the concerned parties prior to making a decision about an Appeal Panel. The Appeal Committee may decline to recommend an Appeal Panel if (i) the appeal deals with ethical issues, (ii) the appeal deals with technical issues, or (iii) the appellant has not attempted to first resolve the issue informally with the subgroup or Working Group that is responsible for the standard. If the Appeal Committee declines to recommend an Appeal Panel based on these criteria, the Appeal Committee shall provide a written communication to the DASC Chair and the appellant outlining the reason for its decision.

If the Appeal Committee determines that the appeal submission is acceptable, the DASC Chair shall form an Appeal Panel consisting of an Appeal Panel Chair and two other members, none of whom were directly involved in the matter in dispute, and who will not be materially or directly affected by any decisions made concerning the dispute. The Appeal Panel shall have at least two members that are acceptable to both the appellant and the appellee.

The Appeal Panel shall hear the appeal during a time convenient to all parties (with at least two weeks' notice to all concerned parties), and, if possible, prior to the next regular meeting of the Sponsor. The appeal may be conducted in person or by telephone conference. Failure of the appellant to participate in the hearing (barring unforeseen technical difficulties) shall constitute a withdrawal of the appeal.

A written decision shall be rendered by the Appeal Panel within 30 days of hearing the appeal and communicated to the parties concerned, including the Chair of the Appeal Committee and the Sponsor Chair.

Sponsor procedural appeals shall be conducted as follows:

The number of participating (i.e., speaking) representatives for each of the parties to the appeal is limited to a maximum of three (3). Other individuals may attend the hearing, but will not be

permitted to address, or be addressed by, the Sponsor’s Appeal Panel or either of the parties to the appeal at any time (including during the question and answer period). No recordings or verbatim transcriptions of the hearing are allowed, except by the IEEE-SA at its sole discretion.

The Sponsor Appeal Panel may call an Executive Session before, during the course of, or following an appeal hearing to consider its action on a specific appeal.

No party to an appeal may communicate with any member of the Sponsor Appeal Panel regarding the appeal while the matter is pending (i.e., from the time of filing of the appeal brief to finalization of the Sponsor Appeal Panel decision).

The appellant has the burden of demonstrating adverse effects, improper action(s) or inaction, and the efficacy of the requested remedial action. Each party may adduce other pertinent arguments, and members of the Sponsor Appeal Panel may address questions to individuals. The Sponsor Appeal Panel shall only consider documentation included in the appeal brief and reply brief, unless

- a) Significant new evidence has come to light; and
- b) Such evidence reasonably was not available to the appellant or appellee, as appropriate, at the time of filing; and
- c) Such evidence was provided by the appellant or appellee, as appropriate, to the other parties as soon as it became available.

Prior to the hearing, the members of the Sponsor Appeal Panel may convene to review the ground rules before the participants appear.

If, after completion of the Sponsor’s appeals process, the party bringing the complaint determines that the Sponsor’s Appeals Panel decision is unacceptable, such party can file a procedural appeal with the IEEE-SA Standards Board as described in the clause on “Appeals” of the *IEEE-SA Standards Board Operations Manual*.
