Re: P11073-10400 - Health informatics - Personal health device communication - Device specialization
- Common framework

Dear Elliot:

I am pleased to inform you that on 06 December 2006 the IEEE-SA Standards Board approved the above referenced project until 06 December 2010. A copy of the file can be found on our website at <http://standards.ieee.org/board/nes/projects/11073-10400.pdf>.

Now that your project has been approved, please forward a roster of participants involved in the development of this project. This request is in accordance with the IEEE-SA Operations Manual, Clause 5.1.2i under Duties of the Sponsor which states:

"Submit annually to the IEEE Standards Department an electronic roster of individuals participating on standards projects"

For your convenience, an Excel spreadsheet for your use has been posted on our website at <http://standards.ieee.org/guides/par/roster.xls>. Please forward this list to me via e-mail at s.hampton@ieee.org no later than 06 March 2007.

Please visit our website, IEEE Standards Development Online (<http://standards.ieee.org/resources/development/index.html>), for tools, forms and training to assist you in the standards development process. Also, we strongly recommend that a copy of your draft be sent to this office for review prior to the final vote by the working group to allow for a quick review by editorial staff before sponsor balloting begins.

If you should have any further questions, please contact me at +1 732 562 6003 or by email at s.hampton@ieee.org.

Sincerely,

Sherry Hampton

PAR Request Date: 06 August 2006	
PAR Approval Date: 06 December 2006	
PAR Signature Page on File: Yes	
Type of PAR: New IEEE Standard	
Status: PAR for a New IEEE Standard	
Root Project:	
1.1 Project No.: P11073-10400	
1.2 Type of Document: Standard	
1.3 Life Cycle: Full-Use	
1.4 Is this document in ballot now? No	
2.1 Title Health informatics - Personal health device communication - Device specialization - Common framework	
2.1 Amendment/Corrigenda Title	
3.1 Working Group Name	Health Informatics - Personal health device - Device specialization - Common framework
Working Group Chair	Bogia, Douglas Phone: 503-456-5031 Email: Douglas.P.Bogia@intel.com
Working Group Vice Chair	
3.2 Sponsor	IEEE Engineering in Medicine and Biology Society 11073 Committee (EMB/11073)
Sponsor Chair	Sloane, Elliot Phone: 610-519-6432 Email: ebsloane@villanova.edu
Name of Standards Liaison Representative (if applicable)	
3.3 Joint Sponsor	
4.1 Type of Ballot: Individual	
4.2 Expected Date of Submission for Initial Sponsor Ballot: March 2007	
4.3 Projected Completion Date for Submittal to RevCom: December 2007	
5.1 Approximate number of people expected to work on this project: 45	
5.2 Scope: Within the context of the ISO/IEEE 11073 family of standards for device communication, this standard establishes a normative framework of communication between personal telehealth devices and compute engines (e.g. cell phones, personal computers, personal health appliances, set top boxes) in a manner that enables plug-and-play interoperability. It leverages appropriate portions of existing standards including ISO/IEEE 11073 terminology, information model, application profile, and transport standards. It specifies the use of specific term codes, formats, and behaviors in a telehealth environment restricting optionality in base frameworks in favor of interoperability. This standard establishes a common core of communications functionality shared by one or more of the personal telehealth device specializations, including common ways of receiving information and managing the devices, and allows vendor extensibility to access non-standardized features.	
5.3 Is the completion of this document contingent upon the completion of another document? No	

5.4 Purpose: This standard addresses a need for an openly defined, independent standard for controlling information exchange to and from personal health devices and compute engines (e.g. cell phones, personal computers, personal health appliances, set top boxes). Interoperability is key to growing the potential market for these devices and enabling people to be better informed participants in the management of their health.

5.5 Need for the Project: The applications for personal telehealth devices differs sufficiently from other ISO/IEEE 11073 point of care medical devices to require derivative standards so as to require derivative standards tailored to address the particular needs of the personal telehealth market. Implementers of this standard will have a clear definition of what is required to implement common features available for personal telehealth solutions. For end users, this standard addresses a market need to provide interoperability among personal telehealth devices and compute engines that interact with the collected information.

5.6 Stakeholders for the Standard: Stakeholders consist of people who use personal health devices in home and mobile environments, personal health device vendors, personal health compute engine vendors, institutions that may ultimately receive data from these devices (e.g. hospitals, doctor offices, diet and fitness companies), payors (e.g. insurance companies), regulatory agencies, telemedicine consultants and businesses.

6.1.a. Has the IEEE-SA policy on intellectual property been presented to those responsible for preparing/submitting this PAR prior to the PAR submittal to the IEEE-SA Standards Board? Yes Presented Date: 2006-07-25

If no, please explain:

6.1.b. Is the Sponsor aware of any copyright permissions needed for this project? No

If yes, please explain:

6.1.c. Is the Sponsor aware of possible registration activity related to this project? No

If yes, please explain:

7.1 Are there other standards or projects with a similar scope? No

If yes, please explain:

Sponsor Organization:

Project/Standard Number:

Project/Standard Date: 0000-00-00

Project/Standard Title:

7.2 Is there potential for this standard (in part or in whole) to be adopted by another national, regional, or international organization? ? Yes

Technical Committee Name and Number: ISO TC215 WG7

Contact person: [Melvin Reynolds](#)

Contact person Phone Number: 44-1989-763-120

Contact person Email Address: MelvinR@AMS-Consulting.co.uk

7.3 Will this project result in any health, safety, security, or environmental guidance that affects or applies to human health or safety? Yes

This standard specifies interoperable data exchange for personal health devices.

7.4 Additional Explanatory Notes:

8.1 Sponsor Information:

Is the Scope of this project within the approved scope/definition of the Sponsor's Charter? Yes

If no, please explain:
