Re: P1512 - Standard for Common Incident Management Message Sets for Use by Emergency Management Centers

Dear Dennis:

I am pleased to inform you that on 08 June 2006 the IEEE-SA Standards Board approved the above referenced project until 31 December 2007. A copy of the file can be found on our website at <http://standards.ieee.org/board/nes/projects/1512.pdf>.

Now that your project has been approved, please forward a roster of participants involved in the development of this project. This request is in accordance with the IEEE-SA Operations Manual, Clause 5.1.2i under Duties of the Sponsor which states:

"Submit annually to the IEEE Standards Department an electronic roster of individuals participating on standards projects"

For your convenience, an Excel spreadsheet for your use has been posted on our website at <http://standards.ieee.org/guides/par/roster.xls>. Please forward this list to me via e-mail at s.hampton@ieee.org no later than 06 September 2006.

Please visit our website, IEEE Standards Development Online (<http://standards.ieee.org/resources/development/index.html>), for tools, forms and training to assist you in the standards development process. Also, we strongly recommend that a copy of your draft be sent to this office for review prior to the final vote by the working group to allow for a quick review by editorial staff before sponsor balloting begins.

If you should have any further questions, please contact me at +1 732 562 6003 or by email at s.hampton@ieee.org.

Sincerely,

Sherry Hampton

PAR Request Date: 28 April 2006	
PAR Approval Date: 08 June 2006	
PAR Signature Page on File: Yes	
Type of Project: Modification to Approved PAR	
Status: Modification to a Previously Approved Revision PAR P1512, 2003-10-30	
Root Project/PAR: 1512 - 2000	
1.1 Project No.: P1512	
1.2 Type of Document: Standard	
1.3 Life Cycle: Full-Use	
1.4 Is this document in ballot now? Yes	
2.1 Title Standard for Common Incident Management Message Sets for Use by Emergency Management Centers	Old Title Standard for Common Traffic Incident Message Sets for Use by Emergency Management Centers
2.1 Amendment/Corrigenda Title	
3.1 Working Group Name	Incident Management Working Group
Working Group Chair	Lorscheider Ann R. Phone: 704-347-6601 Email: alorscheider@ieee.org
Working Group Vice Chair	
3.2 Sponsor	IEEE Vehicular Technology Society Intelligent Transportation Systems (VT/ITS)
Sponsor Chair	Bodson Dennis Phone: 703-243-3743 Email: d.bodson@ieee.org
3.3 Joint Sponsor	
4.1 Type of Ballot: Individual	
4.2 Expected Date of Submission for Initial Sponsor Ballot: 2005-12-01	
4.3 Projected Completion Date for Submittal to RevCom: 2006-06-01	
5.1 Approximate number of people expected to work on this project: 40	
5.2 Scope: This standard will be the base standard for Traffic Incident Management Message Sets which will be used by all response and/or dispatch centers such that the exchange of information will be standard and produce the needed response(s). This standard will be limited to common message sets for use by emergency management centers. Project will incorporate changes to message sets referred to yet defined in other standards.	Old Scope: This standard will be the base standard for Traffic Incident Management Message Sets which will be used by all response and/or dispatch centers such that the exchange of information will be standard and produce the needed response(s). This standard will be limited to common message sets for use by emergency management centers. Project will incorporate changes to message sets referred to yet defined in other standards.
5.3 Is the completion of this document contingent upon the completion of another document? No	

5.4 Purpose: This standard will produce a set of common message sets required for Traffic Incident Management generated and transmitted between emergency management subsystem to all other subsystems and Traffic Incident Management providers. The result will be consistent standardized communications among Traffic Incident Management centers, fleet and freight management centers, planning subsystem, etc.

Old Purpose: This standard will produce a set of common message sets required for Traffic Incident Management generated and transmitted between emergency management subsystem to all other subsystems and Traffic Incident Management providers. The result will be consistent standardized communications among Traffic Incident Management centers, fleet and freight management centers, planning subsystem, etc.

5.5 Need for the Project: This standard addresses the exchange of vital data about public safety issues involved in transportation related events, through common incident management message sets. This standard comprises the basic volume of the family of incident management standards, a multi-volume set of documents centered around this base standard. Collectively, that family of standards shall be referred to as the "1512 Family of Standards." The goal of that family of standards is to support efficient communication for the real-time, interagency management of transportation-related events. Those events include incidents, emergencies, accidents, planned roadway closures, special events and disasters caused by humans or natural events.

5.6 Stakeholders for the Standard: The stakeholders are public safety agencies, including, but not limited to law enforcement, fire & rescue, emergency medical services (EMS), hazardous material management, traffic management, towing and recovery.

6.1.a. Has the IEEE-SA policy on intellectual property been presented to those responsible for preparing/submitting this PAR prior to the PAR submittal to the IEEE-SA Standards Board? Yes Presented Date: 2006-02-21

If no, please explain:

6.1.b. Is the Sponsor aware of any copyright permissions needed for this project? Yes

If yes, please explain:

6.1.c. Is the Sponsor aware of possible registration activity related to this project? No

If yes, please explain:

7.1 Are there other standards or projects with a similar scope? No

If yes, please explain:

Sponsor Organization:

Project/Standard Number:

Project/Standard Date: 0000-00-00

Project/Standard Title:

7.2 Is there potential for this standard (in part or in whole) to be adopted by another national, regional, or international organization? ? No

Technical Committee Name and Number:

Contact person:

Contact person Phone Number:

Contact person Email Address:

7.3 Will this project result in any health, safety, security, or environmental guidance that affects or applies to human health or safety? Yes

This is the base standard for a functional set of volumes that ties in the critical centers' operations concerned with: traffic control, traffic law enforcement, fire/ rescue, emergency medical services, and hazardous materials response.

7.4 Additional Explanatory Notes:

8.1 Sponsor Information:

Is the Scope of this project within the approved scope/definition of the Sponsor's Charter? Yes

If no, please explain:
