Re: PC57.12.20 - Standard for Overhead Type Distribution Transformers, 500 kVA and Smaller: High Voltage, 34 500 Volts and Below; Low Voltage, 7970/13 800Y Volts and Below

Dear Bill:

I am pleased to inform you that on 15 September 2006 the IEEE-SA Standards Board approved the above referenced project until 31 December 2010. A copy of the file can be found on our website at <http://standards.ieee.org/board/nes/projects/C57-12-20.pdf>.

Now that your project has been approved, please forward a roster of participants involved in the development of this project. This request is in accordance with the IEEE-SA Operations Manual, Clause 5.1.2i under Duties of the Sponsor which states:

"Submit annually to the IEEE Standards Department an electronic roster of individuals participating on standards projects"

For your convenience, an Excel spreadsheet for your use has been posted on our website at <http://standards.ieee.org/guides/par/roster.xls>. Please forward this list to me via e-mail at s.hampton@ieee.org no later than 14 December 2006.

Please visit our website, IEEE Standards Development Online (<http://standards.ieee.org/resources/development/index.html>), for tools, forms and training to assist you in the standards development process. Also, we strongly recommend that a copy of your draft be sent to this office for review prior to the final vote by the working group to allow for a quick review by editorial staff before sponsor balloting begins.

If you should have any further questions, please contact me at +1 732 562 6003 or by email at s.hampton@ieee.org.

Sincerely,

Sherry Hampton

Old Scope: This project is a revision of an existing product standard covering certain electrical, dimensional and mechanical characteristics and safety features of single and three phase, 60 HZ, mineral oil immersed, self cooled, overhead type distribution transformers 500 kVA and smaller, High Voltages 34500 volts and below with Low Voltages 7970/13800Y volts and below.
5.3 Is the completion of this document contingent upon the completion of another document? No	

5.4 Purpose: This standard is intended for use as a basis for determining the performance, interchangeability and safety of overhead-type distribution transformers and to assist in the proper selection of this equipment.

Old Purpose: This project is to maintain and update the subject standard which is intended for use as a basis for determining the performance, interchangeability and safety of overhead type distribution transformers and to assist in the proper selection of this equipment.

5.5 Need for the Project: The reason for this project is to update the 2005 issue of C57.12.20 to the latest referenced documents and standards. Also, another reason is to discuss and possibly implement changes recommended in the last ballot and other changes determined to be necessary. These changes will benefit the users with a more efficient and safer product.

5.6 Stakeholders for the Standard: The stakeholders of this standard include the users (electric utilities) and manufacturers of Overhead-Type distribution transformers.
