Dear Mr. Ringle:

Re: Letter of Assurance for Essential Patents for IEEE Project No: Proposed IEEE  
P802.1Qay Standard (PBB-TE)  
PAR Charter no.: 198065775.7743  
Standard Title: Proposed IEEE Standard for Local and Metropolitan Area Networks –  
Virtual Bridged Local Area Networks – Amendment: Provider Backbone Bridge Traffic  
Engineering

Nortel Networks voluntarily re-submits this patent statement letter together with the  
attached Letter of Assurance for Essential Patents (LOA) with respect to the above  
referenced Proposed IEEE 802.1Qay Standard (PBB-TE) according to the project's PAR  
charter no.198065775.7743 (the "PBB-TE PAR Charter").

As stated in our letter dated March 16, 2007, Nortel may have patent application(s)  
having claims that may, if issued, become essential to the Proposed IEEE 802.1Qay  
Standard if approved and adopted by IEEE as contemplated within the PBB-TE PAR  
Charter. To the extent any Nortel Networks patent application issues that has a claim  
that, as issued, is essential to practice such approved and adopted IEEE 802.1Qay  
Standard (PBB-TE), Nortel Networks Limited declares that it is willing, upon written  
request, to make available non-exclusive licenses under such essential claims of such  
patent on a non-discriminatory basis and under reasonable terms and conditions for

compliance with such resulting approved and adopted IEEE 802.1Qay Standard (PBB-TE). In this regard, Nortel submits the attached LOA.

It is understood that if the approved IEEE Standard is subsequently withdrawn, Nortel has no obligation to license a party requesting a license after such withdrawal.

Any party that would be interested in a license under such essential patents may write to Richard Weiss, Deputy IP Counsel - Licensing Lead at 2221 Lakeside Boulevard, M/S 991/14/B20, Richardson, Texas 75082 or by fax at (972) 684-3127.

This letter does not grant any right to IEEE with respect to Nortel copyrights or other intellectual property rights (including patent rights) that relate to the [Proposed] IEEE 802.1Qay Standard (PBB-TE).

Please kindly post this to the IEEE-SA patent database.

Regards,

D. SUBMITTER'S POSITION REGARDING LICENSING OF ESSENTIAL PATENT CLAIMS:

In accordance with Clause 6 of the IEEE-SA Standards Board Bylaws, the Submitter hereby declares the following (Check box 1 or box 2 below):

Note: Nothing in this Letter of Assurance shall be interpreted as giving rise to a duty to conduct a patent search. The IEEE takes no position with respect to the validity or essentiality of Patent Claims or the reasonableness of rates, terms, and conditions of any license agreements offered by the Submitter.

1. The Submitter may own, control, or have the ability to license Patent Claims that might be or become Essential Patent Claims. With respect to such Essential Patent Claims, the Submitter's licensing position is as follows (must check a, b, c, or d an any applicable subordinate boxes):

a. The Submitter will grant a license without compensation to an unrestricted number of applicants on a worldwide basis with reasonable terms and conditions that are demonstrably free of unfair discrimination.

(Optional) A sample of such a license (or material licensing terms) that is substantially similar to what the Submitter would offer is attached.

b. The Submitter will grant a license under reasonable rates to an unrestricted number of applicants on a worldwide basis with reasonable terms and conditions that are demonstrably free of unfair discrimination.

(Optional) These reasonable rates will not exceed (e.g., percent of product price, flat fee, per unit).

(Optional) A sample of such a license (or material licensing terms) that is substantially similar to what the Submitter would offer is attached.

- c. The Submitter without conditions will not enforce any present or future Essential Patent Claims against any person or entity making, using, selling, offering to sell, importing, distributing, or implementing such a compliant implementation.
- d. The Submitter is unwilling or unable to grant licenses according to the provisions of either a or b above or to agree that it will not enforce its Essential Patent Claims as described in c above.
- 2. After a Reasonable and Good Faith Inquiry, the Submitter is not aware of any Patent Claims that the Submitter may own, control, or have the ability to license that might be or become Essential Patent Claims.

**E. SCOPE OF ASSURANCE:**

The Submitter may, but is not required to, identify one or more of its Patent Claims that it believes might be or become Essential Patent Claims. **(Check box 1 or box 2 below)**

- 1. When checked, this Letter of Assurance only applies to the Patent Claims identified below that are or become Essential Patent Claims. (If no Patent Claim is identified below, then this Letter of Assurance applies to all Essential Patent Claims supported by the disclosure in the patent or patent applications listed below.)
