Dear Mr. Ringle:

Re: IEEE 802.1ah – Provider Backbone Bridges (the “IEEE 802.1ah Standard”)

Nortel Networks submits this patent disclosure letter together with the attached Letter of Assurance for Essential Patents (LOA) with respect to the proposed IEEE 802.1ah Standard under development.

Nortel Networks Limited believes that its US Patent No. 6,937,574 may be relevant and potentially essential with respect to at least portion(s) of the IEEE 802.1ah Standard, if approved and published by IEEE.

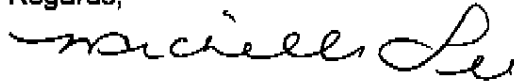

In this respect, Nortel submits that to the extent any claims of this patent, or any of its foreign counterparts, is essential to practice the approved and adopted IEEE 802.1ah Standard, Nortel Networks Limited declares its licensing position that it is willing, upon written request, to make available non-exclusive licenses under such patent on a non-discriminatory basis and under reasonable terms and conditions to comply with such resulting IEEE 802.1ah Standard.

It is understood that if this IEEE standard is subsequently withdrawn, Nortel has no obligation to license a party requesting a license after such withdrawal.
