

IEEE Defense Standards Collection

This CD contains all active and withdrawn standards adopted by the U.S. Department of Defense, as indicated online in the [DoD ASSIST database](#). Multiple revisions of the same standard may exist, indicated by the standard year in the designation.

The U.S. Department of Defense ASSIST database is the official source of DoD specifications and standards. ASSIST-Online includes more than documents. Users also have direct access to related DoD databases including DSP standardization projects (SD-4), standardization points-of-contact (SD-1), Data Item Descriptions (DIDs), MilSpec Reform management data, and HAZMAT/ODC data.

Using powerful search and hyperlink features in ASSIST-Online, users may transparently locate and view diverse standardization data across each of these integrated systems. IEEE standards are NOT included online in ASSIST. This CD was designed to give a single user, access to all of the IEEE standards with full search capabilities.
