

Errata to IEEE Recommended Practice for the Application of Human Factors Engineering to Systems, Equipment, and Facilities of Nuclear Power Generating Stations and Other Nuclear Facilities

Developed by the
Nuclear Power Engineering Committee
of the
IEEE Power and Energy Society

Correction Sheet
9 April 2021

Copyright 2021 by the Institute of Electrical and Electronics Engineers, Inc. All rights reserved.
Published 9 April 2021. Printed in the United States of America.

This correction sheet may be freely reproduced and distributed in order to maintain the utility and currency of the underlying Standard. This correction sheet may not be sold, licensed or otherwise distributed for any commercial purposes whatsoever. The content of this correction sheet may not be modified.

In the Normative references clause on page 11, please adjust the following reference to read as shown below:

IEEE P2411™, IEEE Draft Human Factors Engineering Guide for the Validation of System Designs and Integrated Systems Operations at Nuclear Facilities.⁶

In Annex A, starting on page 27, please capitalize the “r” and “v” in “rev.” and “vol.,” respectively. Also correct the following references’ volume and revision numbers, which had been incorrectly listed previously, to display Arabic numerals:

Annex A

(informative)

Additional resources

This informative annex lists resources that provide additional or helpful material, but do not need to be used or understood to implement this standard. Reference to these resources is made for informational use only. This information is organized by clauses in accordance with the Engineering Process Model (Figure 2), but may be useful for topics other than as given below.

Engineering Process (6.1)

NUREG-0711 Rev. 3 (2012), “Human Factors Engineering Program Review Model.”⁹

Analysis (6.3)

NUREG-1764 Rev. 1 (2007) “Guidance for the Review of Changes to Human Actions.”

Specification (6.4)

PPA AP-907-001 Rev. 2 (2016), “Procedure Process Description.”

PPA AP-907-005 Rev. 2 (2016), “Procedure Writer’s Manual.”

INPO 09-004 Rev. 0 (2009), “Procedure Use & Adherence.”

NUREG/CR-5228 Vol. 1 (1989), “Techniques for Preparing Flowchart-Format Emergency Operating Procedures.”

NUREG/CR-5228 Vol. 2 (1989), “Techniques for Preparing Flowchart-Format Emergency Operating Procedures.”

NUREG-0700 Rev. 3 (2020), “Human-System Interface Design Review Guidelines.”

Operations and maintenance (6.6)

EPRI NP-4453-L Rev. 1 (1991), “Heat-Stress Management Program for Power Plants.”
