

DISTRIBUTOR PROGRAM

MARKETING SUPPORT

DISTRIBUTORS PROGRAM MARKETING SUPPORT

IEEE Standards Association (IEEE SA) wants to help you be successful in marketing our products. As part of the Distributor Program, IEEE will send you:

- Monthly eNewsletter (SA Newswire): Learn about the newly published standards and products, as well as additional content and standards-related materials.
- Quarterly updates: Learn about the recently approved projects and standards as they are voted upon in the quarterly Standards Association Board meetings.
- Distributor Program communications: Upon request, get information regarding the Distributor Program, promotional support tools and updates, and other relevant news.

IEEE AND IEEE SA BRAND GUIDELINES

IEEE and IEEE SA brand guidelines are available at standards.ieee.org/about/distrib and should be reviewed prior to creating your promotions to help ensure proper brand implementations.

Please note in referencing IEEE standards, you should always include the IEEE brand. Correct standards naming convention is as follows: IEEE Std 1234™-2014 or IEEE Std 1234™, standards projects or drafts include a “P” within the name, i.e., IEEE Std P1234™.

If you have special needs or require additional support, please let us know and we will do our best to assist you at stds-ipr@ieee.org.
