

DISTRIBUTOR PROGRAM

INTEGRATING IEEE DATA

IEEE PRODUCTS AVAILABLE THROUGH THE DISTRIBUTOR PROGRAM

IEEE standards, drafts, family sets, and collections are all available as part of the Distributor Program and can be purchased in various formats:

- Bound hard copies
- Print-on-Demand
- PDF*

Additional Products:

- Redline version of IEEE standards
- Bundled standards/sets
- Pre-defined subscription packages**
- Custom Collections—choose the products relevant to your customer base

You can [download](#) the following sample files to understand the data, file layout, subscription and category trees: standards.ieee.org/distributor

- Distributor_efeed_schema
- Distributor_efeed_XMLTagDescriptions
- Distributor_efeed_4828.zip (sample file)
- Category_tree.xml (Browse/Technology areas)
- Subscription_tree.xml (subscription package listing)

THE PROCESS AT A GLANCE

In order to set up the data feed of IEEE SA standards product information and offer our products through your website, you will need to understand the following requirements and process.

The Process:

1. Distributor to review IEEE SA sample files and map data fields
2. Distributor provides technical/IT contact information to IEEE SA
3. Distributor establishes FTP/sFTP site and provides IEEE SA with authentication credentials
4. After agreement is signed, IEEE SA sends complete XML data feed to Distributor FTP/sFTP site
5. Ongoing/incremental updates and new items will be sent automatically via the efeed
6. IEEE SA offers technical support and assistance as needed

*Some products may require Digital Rights Management (DRM)
