

IEEE RESPONSIBLE PROCUREMENT OF AI TRAINING

This training provides procedures and tools to help minimize risk in the purchasing lifecycle of AI and automated decision systems.

Part of the IEEE CertifAIEd™ Suite of Products

IEEE CertifAIEd™
THE MARK OF AI ETHICS

EQUIPPING PROFESSIONALS FOR RESPONSIBLE AI PROCUREMENT

In today's AI-driven world, organizations face increasing pressure to adopt automated decision systems. But without the right knowledge, this can lead to unintended bias, compliance issues, and costly procurement mistakes.

IEEE RESPONSIBLE AI PROCUREMENT TRAINING

This self-paced, 4-5-hour interactive course equips professionals with practical tools and procedures to minimize risk throughout the AI purchasing lifecycle.

Participants of the course receive a complimentary PDF of the IEEE 3119 standard and a verifiable Digital Certificate of Completion after passing the final assessment.

Aligned with the IEEE 3119™ standard, the training introduces six core procurement processes:

- Problem Definition
- Solicitation Preparation
- Vendor Evaluation
- Solution Evaluation
- Contract Negotiation
- Contract Monitoring

BENEFITS TO YOU AND YOUR ORGANIZATION

- **Mitigate Risk Early:** Identify and address potential issues before they escalate
- **Boost Efficiency:** Streamline procurement with modern best practices
- **Ensure Compliance:** Stay aligned with global AI governance frameworks
- **Empower Your Team:** Train procurement, legal, finance, and supply chain professionals to make informed, ethical decisions

WHO SHOULD REGISTER?

This course is ideal for corporations of all sizes as well as nonprofits, think tanks, and academia, that must manage sourcing, procurement, contracts, inventory, and compliance:

- Procurement Teams
- Chief Procurement Officers (CPOs)
- University Procurement Leaders
- Finance Departments
- Supply Chain Managers
- Legal teams

WHAT YOU WILL LEARN

Learn how to apply the IEEE 3119™ standard using 3 core tools – **risk appetite analysis**, **vendor scoring guides**, and **risk registers** across 6 procurement processes.
